

what's happening to America, the land of the free,
the home of the brave?

More and more, we-the-people are being told what
to think by big corporations and big media. And
here it is, the eve of THE most important election in
recent history, and Sinclair Broadcasting Company
is trying to force its TV stations to show opinionated
programing with an anti-Kerry documentary!?

I, for one, object!

FCC, please do your job!

Sinclair uses the public airwaves free of charge, and
should be serving the public interest. Aren't there
rules about equal time for all candidates in an
election?

FCC, don't let this slide! We the people are counting
on you to let freedom truly ring!

Instead of something produced at "News Central"
far away, it's more important that we see real
people from our own communities and more
substantive news about issues that matter.

Sinclair's actions show why we need to strengthen
media ownership rules, not weaken them. They
show why the license renewal process needs to
involve more than a returned postcard.

Please let Sinclair know that the American people --
and the FCC -- will not let this slide!

Thank you.
